

The Checklist

Monitoring & Reliability

Understand how conditioning monitoring methods can greatly improve pump reliability and extend the life of pumps and systems.

5 Webinars (9+ hours)
1 Guidebook
2 Standards Books

\$ 760 Total Cost
+ 2 Courses - Live Training, *priced separately*

See Live COURSE offerings below.

- ☐  **Pump Vibration Single-Session Webinar** (W1)
\$59

- ☐  **Rotodynamic Pumps for NPSH Margin Single-Session Webinar** (W2)
\$59

- ☐  **Condition Monitoring 2-Part Series** (W8)
\$134

- ☐  **Pump System Assessment (PSA) 2-Part Series** (W5)
\$99

- ☐  **Hydraulic Modeling and Simulation of Pumping Systems** (W6)
\$99

- ☐  **Reliability of Pumping Equipment: Guidelines for Maximizing Uptime, Availability, and Reliability** (G7)
\$160

- ☐  **Rotodynamic Pumps Guideline for Condition Monitoring** (S22)
\$80

- ☐  **Rotary Pumps - Guidelines for Condition Monitoring** (S26)
\$70

- ☐  **Pump System Optimization (PSO) - Live Course** (C1) - Earn 7 PDH Credits 

- ☐  **Pump System Assessment (PSA) - Live Course** (C2) - Earn 7 PDH Credits
